

The Free Thinking Film Society Presents: Unmasked: Judeophobia and the Threat to Civilization

The current political assault against the State of Israel fundamentally is a war against the Jewish people and their right to self-determination. Jews are facing a threat much greater than a military threat in the battlefield or a traditional terror threat in urban centers. They are facing the possible uprooting of the very idea that there should be a nation state of the Jewish people.

Featured in the film:
